Sub:- Disruption of Medical services during the band

Sir,

Medical services being one of the essential services is always exempted from the purview of Bandh even in war time. But unfortunately during the 36 hrs Capital Bandh on 15th & 16th Jan 2009, medical services were disrupted on many occasions and in different places causing damage to Ambulances and physical harm to the Doctors on duty. APDA strongly condemns such unconstitutional activities.

Hence with regret it is appealed to all concerned to understand the nature Of the medical services and to refrain from disrupting medical services in the Future
